Mr. James W. Smith, Jr.
State of Utah Natural Resources
Oil, Gas & Mining
4241 State Office Building
Salt Lake City, Utah 84114

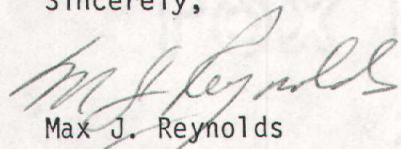

Dear Mr. Smith:

Enclosed you will find:

1. Revised Annual Operations and Progress Report (Form MR-3).
2. Revised GSL drawings Nos. 800-11-05-19 and 800-11-05-20, which show all pits with any acreage changes from that filed March 1, 1984.

All other documents previously filed remain unchanged.

Sincerely,

Max J. Reynolds

ANNUAL OPERATIONS AND PROGRESS REPORT

19 84

(To be filed for each mining operation at the end of each calendar year.)

OPERATOR: Great Salt Lake Minerals & Chem. MINE NAME: Great Salt Lake Minerals & Chem.
ADDRESS: 765 North 10500 West PERMIT #: Act/057/002
Ogden, Utah 84402 As previously filed-no changes
Sec. _____ T. _____ R. _____ SLBM
REPRESENTATIVE: M. J. Reynolds DATE OF APPROVAL: _____

- (1) Section 40-8-15 and Rule M-8 of the Utah Mined Land Reclamation Act,
require each operator to include with this report an up-dated map and plan
prepared in accordance with Rule M-3, providing a detailed status of all
mining and reclamation activities which have occurred during the past year.
- (2) The gross amount of materials moved during the year for this mining
operation was: 1,667,500 cubic yards

The disposition of each type of material was: Pond dike protection and
repairs resulting from rising Great Salt Lake.

(3) Status of reclamation work.* (Note comments below)

<u>Month</u>	<u>Number of acres</u>	<u>Type of Work Performed</u>	<u>Results (Revegetation Success)</u>
January			
February			
March			
April			
May			
June			
July			
August			
September			
October			
November			
December			

*The monthly status of reclamation work should include such items as clean-up, regrading, recontouring, soil preparation, seeding, etc., and may be outlined on a separate sheet if necessary.

Recontouring of slopes is done as materials are removed. All pits continue to be used, therefore, no reseeding efforts were undertaken. However, the rising lake level inundated sections of some pits as shown on the drawings enclosed. Some slopes, particularly in those areas where the lake has reclaimed floor areas, are scheduled to be reseeded during Spring, 1985.
